

Monitor progress

Track progress in maths year-on-year

Personalise learning

Make use of invaluable data about pupils' strengths and weaknesses

Benchmarking

Benchmark attainment against peers nationally

The Progress Test in Maths (PTM) is a standardised assessment of pupils' mathematical skills and knowledge. PTM assesses two dimensions of maths learning

1. Mathematical content knowledge (Curriculum Content Category)
2. Understanding and applying mathematical processes through reasoning and problem solving (Process Category)

An valuable tool for improving teacher workload

Both the assessment itself and its reports have been designed to be as accessible and straightforward as possible, including simple guidelines for understanding the data, as well as ongoing support and guidance to ensure you are never left in the dark.

An accurate measure of progress

The assessment is aligned to the new national curriculum with a new standardisation based on around 34,000 pupils, providing valuable diagnostic information about specific strengths and weaknesses.

A reliable year-on-year benchmark

PTM can be used at the start and end of the academic year and is ideal for monitoring progress over time.

An indicator of individual / group / whole school patterns

Individual, group and school reports are available, helping you to spot patterns.

An invaluable tool for intervention

Helps you identify those who are underperforming in comparison to their indicated ability - making it easier to intervene in the most important areas.

The reports within PTM will feature a new indicator showing potential student attainment at the end of KS2 and GCSE. PTM is part of the Progress Test Series along with English and science.

Quick reference guide

Age range: Digital 7-14.
Paper 5-14

Suitable for: Teachers, Maths Co-ordinators and SENCOs

Test duration: 60-75 minutes

Format: Digital/Paper

We've been so impressed. It's easy to administer, doesn't take up too much teacher time, yet we're able to get in-depth information and age related scores. No other assessment we looked at was suitable for use throughout the school or was as accurate

Next Steps...

Speak to one of our team and they can help see if PTM is right for you.
